Subject: Bremerton Gasworks: Final Public Health Assessment.

Hello!

Department of Health and the Agency for Toxic Substances and Disease Registry (ATSDR) have finalized the Bremerton Gasworks Public Health Assessment and Letter Health Consultation. Attached, you will find the final PDFs of both documents. These will also be made available on our website at www.doh.wa.gov/consults.

You'll notice that the final Public Health Assessment is back-dated to July 2016. Although the PHA was approved in July, ATSDR wanted to hold the release until both the PHA and LHC were approved and could be released at the same time.

Please let me know by Wednesday, January 18 if you would like hardcopies of either document.

Best,

Lindsay
